

## Mississippi River Below Hannibal, Missouri to the Gulf of Mexico (1998 Flood Control and Navigation Maps)

The data in this Navigation Book has been extracted from the Mississippi Valley Division Regional Engineering and Environmental Geographic Information (REEGIS) Data Base. Maps were prepared from surveys by Corps of Engineers offices and other Federal and State sources. Geodetic positions refer to North American Datum 83, with Polyconic Projection Grid. It has Political boundaries, Locations of Navigation Lights, Channel Lines and Mississippi River Shore Lines. Distances on Mississippi River above Head of Passes (Zero Mile), also South and Southwest Passes below head of Passes (Zero Mile) are shown as negative mileages. Mile Zero on the Upper Mississippi River starts at Cairo, Illinois at the mouth of the Ohio River. Distances on Mississippi River-Gulf Outlet landward and seaward of Chandeleur Islands (Zero Mile) are shown as negative numbers. This navigational map contains all the information mariners would need to navigate the Mississippi River.
