

Seasons of Change

The Seasons of Change workbook is for those searching for a deeper connection to not only nature, but to all the elements of nature including the moon and all its cycles, each of the four seasons and coordinating solstices and equinoxes, how to create altars, and how to work with the elements of earth, air, water and fire to create magic and ritual as a regular practice. We have created a space for study but also for receiving magical channeled messages from spirit for you as you work through the entire program. The shifts you'll attain will touch all parts of your life ... if you allow and are ready to do the work. We are believers in absorbing what resonates and leaving the rest behind. Take some time reading through the workbook to get an idea of the flow, then you can come back around and begin in the section of your choice. Each section is broken down by the season, providing an overview of the energy of the season, stories, teaching lessons, tools, and how to embrace this time for you. Be ready to dive in and do some work! We have provided various tools and lessons for you to experience as you move through the pages of this workbook. Take your time digging deep, and allowing the experience to move through you. There is always a Full Moon and New Moon in every month, we suggest marking these dates on your calendar as well as the Holy Days to help you track them. We host a live version of this class a few times per year, visit our website for more information and to register: www.invokingmagic.com. The live class creates connection, provides support, and gives you personal time with Jodie & Melissa. We would love to have you join us!
