

Blue Bloods Trifecta (Wind Warriors Book 6)

Wind Warriors series: The Wind Warriors exist for one reason: ridding the earth of the most vile and lowest forms of humanity in existence. Former special ops members, these retired military men and one woman still carry the fire and drive to protect the innocent, only now they work in total secret, pick and choose their missions, and have free rein to complete their assignments in the most complete way possible. They take on impossible odds, put their lives on the line, and are only known to exist by the very top level of national security. Failure isn't an option. For them, finding love and settling down is a dream. Their career keeps them on the move and at the mercy of a phone call. Not to mention, the danger anyone attached to them could face if one of their targets tracks them back. Yet, as each one stumbles across a special person, they can't help but wonder if just maybe they can balance both work and love for the right person. After all, Wind Warriors are brave, smart, and downright determined. What they want, they find a way to get. Blue Bloods Trifecta by Cheyenne Meadows Book Six in the Wind Warriors series When past meets present things begin to sizzle. When an emergency call goes out, FBI agent Ryan tags along with his sister on a Wind Warrior mission. Along the way, he meets Tempest, a beautiful female pilot who stirs his desires, and Rogue, a former Army buddy. Seeing Rogue again brings out feelings Ryan doesn't understand and isn't prepared to accept. Their old rivalry returns as both men want Tempest, who happens to be Rogue's employee. The mission that brought the three of them together comes back to haunt them all with danger hanging over the head of every Wind Warrior and their loved ones. Can Ryan work through his newfound interest in Rogue even as he's falling for Tempest? Will they pull together and unite in time to save each other from a hired assassin? Cheyenne

Meadows About the Author: Growing up in the Midwest, I began reading romance novels in high school, immediately falling in love with the genre, to the point where I decided to write professionally for a career. However, that dream splattered against a brick wall, resulting in a quick death in my first writing class in college when my professor told me bluntly that I wasn't any good at it. I shifted gears quickly, and left my writing dreams behind, eventually settling on becoming a nurse. A few years back, I stumbled across a fan-fiction writing site on a favorite author's webpage. I began to read stories others wrote, not only making some wonderful close friends from the experience, but also, really learning to write for the very first time. Here I was able to share short stories, practice my writing skills, and truly develop into a writer. More than that, the experience allowed me to revitalize my dream, as I rediscovered joy in writing. Now, I spend my days off with my alpha male characters, quick-witted heroines, and see how much trouble everyone can get into. When I'm not working or writing, I enjoy working in the garden, canning, and seeing my backyard as a living canvas for my whimsical landscaping, and, of course, reading romance novels.
