

CompTIA Network+ Certification Coursecard, 2005 Objectives + Certblaster (Coursecards)

The CompTIA Network+ certification is a valuable credential in the IT marketplace. This card can help you pass the test, as well as provide a handy reference for general networking information. A basic overview summarizes access methods, transport protocols, network services, wireless LANs, and security and authentication protocols. Advanced topics cover network devices, network security, remote access protocols, and WAN technologies. The quick reference section will help you remember types of media, media connectors, and cables, as well as reference models, IP addressing, TCP/IP protocols and ports, networking technologies, and remote access connection technologies.

Purchase of this CourseCARD entitles you to one free download of the CertBlaster exam prep software for Network+ Certification: 2005 Objectives. CertBlaster provides integrated knowledge assessment, a personalized study path, and simulations to prepare you for exam day. Need a Custom Solution? All of our quick-reference guides can be branded or customized to meet your organizations needs. We can add your company logo, corporate colors, help desk information, or tailor the content to meet your requirements. The process is simple and easy. Minimum order 1000 guides. This CourseCARD is also available in the following languages: - French - German - Spanish All Axzo Press localized CourseCARDS can be purchased in printed form or licensed in PDF format. And like our English-language cards, they can be customized to create the perfect quick-reference solution for your organization. For more information about customized and localized CourseCARDS, please contact your sales representative or call customer service at 888-534-5556.
