

ISO 3553-1:1987, Road vehicles - High-tension connections for ignition coils and distributors - Part 1 : Socket-type

This part specifies the essential dimensions of socket-type connections, used for spark-ignition engines. Applies to high-tension sockets and cable connectors of type A (figures 1 and 2). An annex gives socket and connector type B (figures 3 and 4). This first edition cancels and replaces the ISO 3553:1975. This title may contain less than 24 pages of technical content.
