Scour protection for locks and dams 2-10, upper Mississippi River United States Army Corps of Engineers St. Paul District [WorldCat Weather Forecast Office Bismarck, ND North Central River NOTE: Forecasts are not available for the Souris River at Lake Darling. (2) 1,602.23 ft on 06/01/2011 (3) 1,602.04 ft on 05/14/1975 1603.04, Water begins to flow over spillway. 1602.48 Page last modified: 21-Dec-2016 5:20 PM, Disclaimer Credits : **Deborah Cooper - Engineering & Transportation: Books** The findings in this report are not to be construed as an official Lake Darling Svillway, Souris River, North Dakota Hydraulic Model Investigation. 12. . 2. The modified dam will consist of a concrete gravity-type spillway structure flanked by compacted . During the model investigation, the left bank approach was modified. **First US-Japan Workshop on Advanced Research on** - Published: (1992) Lake Darling Spillway, Souris River, North Dakota. report 2, Modified spillway : hydraulic model investigation / By: Cooper, Deborah R. **Lake Darling Spillway, Souris River, North Dakota. Report 2** Catchment area, 9,450 sq mi (24,500 km²). Surface area, 15.6 sq mi (40 km²). Maximum water depth, 26 ft (8 m). Lake Darling Dam is an earthen embankment dam on the Souris River located 20 mi (32 km) northwest of Minot, in Ward County, North Dakota. Dam and spillways. Type of dam, Embankment, earthen. **Catalog Record: Evaluation of three energy dissipators for Hathi** Results 1 - 25 of 66 Lake Darling Spillway, Souris River, North Dakota.
