

I have focused on the idea of man in creation and have tried to clarify it. Perhaps there is as much confusion and uncertainty here as anywhere today, even in Christian ranks. There is confusion and uncertainty of the beginning of man, was he created as man as of today or did he evolve from an ape? Also, there are other things that confuse and seem uncertain to man that I tried to point out in this study. The idea of God is being attacked in many ways and in many quarters. But there seems to be, also, a growing recognition of mans need of God. Man within himself is helpless in the midst of hostile forces on every hand. God is mans only refuge and help in time of need. I feel that man should know about his total self, and relationship with God. I will try to point out and focus on studies of man before the world was created, the three-folds of mans nature and functional parts, his fall and punishment, and also his renewal stages and his final destiny.
