

Modelbuilders Notebook: A Guide for Architects, Landscape Architects, and Interior Designers

This self-instructional studio textbook on modelbuilding incorporates extensive illustrations and photographs to demonstrate modelbuilding techniques which are widely accepted within all of the major environmental design professions (Architecture, Landscape Architecture, Interior Design). It is suitable for use in first year design studio or graphics studio in departments of architecture, landscape architecture, or interior design, as well as architectural drafting courses. Written for beginning students to encourage modelbuilding early in the design process, the book demonstrates techniques for constructing professional-quality models quickly with simple tools and available materials.
