

Unveil the Past, Heal the Future through Hypnotherapy

Using spellbinding transcripts of actual hypnotherapy sessions, the author reveals what her clients subconscious minds have shown her regarding some of the greatest mysteries we face: Do we keep running into the same group of souls in successive lifetimes? If so, could hypnosis help us improve our relationships with them? Can past-life traumas spill over into a current lifetime, causing illnesses and phobias that doctors and psychiatrists cannot diagnose? And if so, can hypnosis heal them?
