

# Recultivating the Vineyard: The Reformation Agendas of Christianization

Scott Hendrix argues in this book that the sixteenth century reformers all shared the same goal: to Christianize Christendom, that is, to replant authentic Christianity in the vineyard of the Lord, in the same European Christendom which they believed had been devastated by the medieval church. He believes it is more accurate and useful to speak of one Reformation and to locate its diversity in the various theological and practical agendas that were developed to realize the goal of Christianization.
