

12th Five-Year Plan of regular higher education textbooks: hydraulics (Vol.2)(Chinese Edition)

Paperback. Pub Date: 2011 07 Pages: 343
Language: English Publisher: China Water Power Press 12th Five-Year Plan regular higher education textbooks: water mechanical (Vol.2) Higher Engineering School Water Conservancy. Thermal Energy and Power hydraulics textbook. class. civil engineering. environmental engineering class written on volumes of content including: basic concept introduction statics water. water dynamics. flow morphology and head loss. liquid basic theory of the three-dimensional flow. constant flow of pressurized pipes pressure pipeline unsteady flow. open channel constant uniform flow. The next volume of content including: open channel steady nonuniform flow. open channel constant rapidly varied flow - water jump and water down the basis of the boundary layer theory. crest overflow and hole flow convergence and energy dissipation the discharge structures downs...
