

## REFLECTIONS OF A UFO INVESTIGATOR

This is the journey begun by a teenager who had a question about a UFO sighting. This is the story of that boy who became a UFO investigator and used every opportunity he had to investigate cases throughout the United States. This is a report on investigations as diverse as the Carroll Wayne Watts contact case and the Roswell UFO crash. This is a history of UFO research from the mid-1960s until today, told by someone who was there and who saw much of it himself. This is the account of a researcher who fought to let the facts speak for themselves in the midst of heated arguments within the UFO community. This is the memoir of an adult who found a few answers to the UFO mystery but in the process came face to face with dozens of new questions. This is REFLECTIONS OF A UFO INVESTIGATOR by Kevin Randle. KEVIN D. RANDLE is a retired military officer who served in Vietnam as a helicopter pilot and in Iraq as an intelligence officer. He has been investigating UFOs for more than 40 years and has traveled throughout the U.S. on his quest to learn the truth. He has written more than 20 books on UFOs, has interviewed hundreds of people about their experiences, and has lectured throughout the country about one of the most puzzling phenomenon in our times.
