

## Green Retail Guide: Integrating LEED Into Your Leasing Process

What it is: Enables the tenant and landlord to work together to complete business transactions that enable one or both parties to meet their sustainability and performance goals. Who it's for: - Retail tenants - Real estate departments - Store planning and construction teams - Service providers - How it works: The Green Retail Guide explains approaches to green team selection, site selection, negotiations, lease language, build-out, and ongoing operations in leased retail spaces. By using this guide to green the leasing process, both tenants and landlords can begin to identify opportunities to improve the performance of a retail location.
