

When The Storm Rolled In

Brook Southerland, a beautiful and saucy business woman takes the cruise vacation of a lifetime expecting to enjoy three weeks of relaxation and new adventures. Her vacation has a rocky start when she meets an arrogant man before ever leaving port. Determined to make the best of her trip she excuses herself and makes it a point to avoid further contact with him. Without warning she soon discovers their lives will become entwined in a web of lies, deception and murder as she finds herself helplessly thrust into a world where greed and evil preside over conscience; a dark world where the discovery of true love is clouded by brutal sex acts and sadistic perversion leading to murder.
